Subject: Environmental Policy Statement

To Whom it May concern

Solar AdTek designs and manufactures energy efficient Solar Systems and LED lighting for Out of Home advertising displays.

Solar AdTek is committed to complying with all relevant environmental legislation, and any regulatory requirements related to the company's operations and products. Solar AdTek will encourage the adoption of similar principles by its suppliers.

Solar AdTek management is committed to reducing its environmental impact by reducing process waste and energy usage, with a program of continual review and improvement of its environmental objectives and targets.

Staff awareness of environmental issues will be achieved by appropriate training of employees for the improvement of the company's environmental performance.

Solar AdTek is committed to the prevention of pollution by reducing the impact of its operations on both the local and global environment by means of measurement, monitoring and tracking of key environmental performance indications and the setting of realistic achievable targets from Jan-2024.
